Industrial Strategy for Kyushu-Okinawa Regional Growth—Kyushu-Okinawa Earth Strategy II

The Kyushu-Okinawa Regional Council for Industrial Competitiveness promotes initiatives in four strategic areas that leverage Kyushu and Okinawa's strengths to achieve the sustainable development of Kyushu, a gateway to Asia trying its best to work on solving new issues. The Council developed this strategy in 2014 under a public-private partnership. As of 2021, 21 projects are underway on Stage 2, incorporating new perspectives.

Kyushu Economy International

Kyushu Economy International website
<http://www.kyushu-kei.org/>
 Kyushu Economy International (KEI) provides information on Kyushu's business environment and international exchange projects, from time to time.

○KEI was established in July 2001 as a unified organization for international economic exchange for Kyushu in cooperation with local public organizations, economic organizations, and private companies in the region.
 ○KEI aims to revitalize and autonomously develop Kyushu through industrial exchanges and personnel exchanges between Kyushu and overseas projects. Therefore, KEI publicizes Kyushu's attractive industrial location environment and environmental resources to overseas countries in an integrated manner. At the same time, KEI promotes innovation and a harmonious regional promotion through industrial location and industrial exchange, by attracting domestic and foreign companies.

Organization

Chairman	Chairman, Kyushu Economic Federation
Vice-Chairman	Chairman, Kyushu Federation of Chamber of Commerce and Industry
Members	Each prefecture, each government-designated city, economic organizations, industrial support organizations, financial institutions, and other private companies
Support organizations	Organization for Small & Medium Enterprises and Regional Innovation, Kyushu Branch Each Prefectural Trade Information Center of Japan External Trade Organization (JETRO) Kyushu Center, Japan International Cooperation Agency (JICA Kyushu) and others
Advisors	Director, Kyushu Bureau of Economy, Trade and Industry Director-General, Kyushu District Transport Bureau
Secretary-General	Managing Director, Kyushu Economic Federation
Counselor	Director, International Affairs Department, Kyushu Bureau of Economy, Trade and Industry Director, Tourism Department, Kyushu District Transport Bureau
Secretary-general	Director, International Department, Kyushu Economic Federation
Secretariat	International Department, Kyushu Economic Federation International Affairs Department, Kyushu Bureau of Economy, Trade and Industry

Summary of operations

- 1. Planning and proposing internationalization strategies**
KEI considers plans on effective collaborative projects and surveys for the entire Kyushu region and implements them while exchanging opinions and sharing information among KEI members.
- 2. Public relations and information dissemination**
KEI utilizes website and public relations materials related to the Kyushu economy and widely disseminates information both home and abroad on Kyushu's business environment and corporate support projects on overseas expansion.
- 3. Economic exchange**
 - (1) Economic exchange projects with the Asian region (e.g., Yellow Sea region, China, South Korea, and ASEAN)
 - (2) Seminars etc. to provide information on overseas business and economic situations, including the latest overseas local information, market trends, and support system usage.
 - (3) Overseas exhibitions, business meetings with overseas buyers, etc. to support an expansion of sales channels in Asia, Europe, the United States, etc. KEI develops a wide range of overseas expansion support and economic exchange projects, including the above.
- 4. Personnel exchange**
KEI promotes mutual understanding between Kyushu companies and global human resources, such as international students, and the recruitment and retention of international students in Kyushu companies. Accordingly, KEI implements projects, including opportunities for exchange and making contact points.
- 5. Investment promotion**
KEI collects information on the promotion of investment (internal investment) in Kyushu, implements external promotion, and makes efforts to promote investment in various parts of Kyushu

PROFILE OF KYUSHU 2021

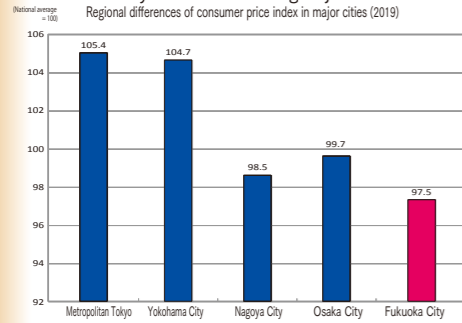

Kyushu - Gateway to Asia

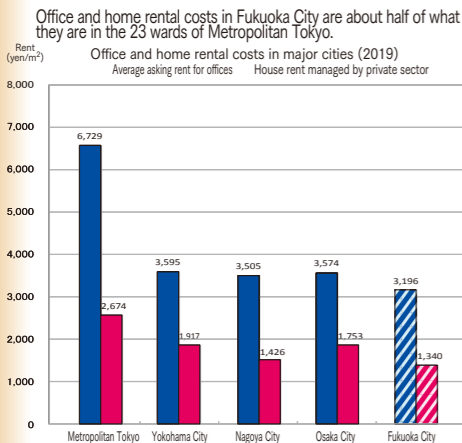

Infrastructure information of Kyushu

Advantage of Kyushu's infrastructure

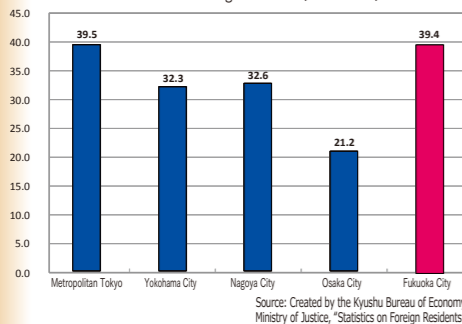

The regional difference index of consumer prices in Fukuoka City is the lowest among major cities.

Office and home rental costs in Fukuoka City are about half of what they are in the 23 wards of Metropolitan Tokyo.

The rate of increase of foreign residents in Fukuoka city is at the top level for major cities.

Port of Hakata is ranked second, and Port of Nagasaki is ranked fourth in the country for number of port visits by foreign cruise ships.

Source: Created by the Kyushu Bureau of Economy, Ministry of Land, Infrastructure, Transport and Tourism "Port call results of cruise ships in 2019 (quasi-estimation)" and Kyushu Regional Development Bureau "Kyushu Cruise Report, January issue"

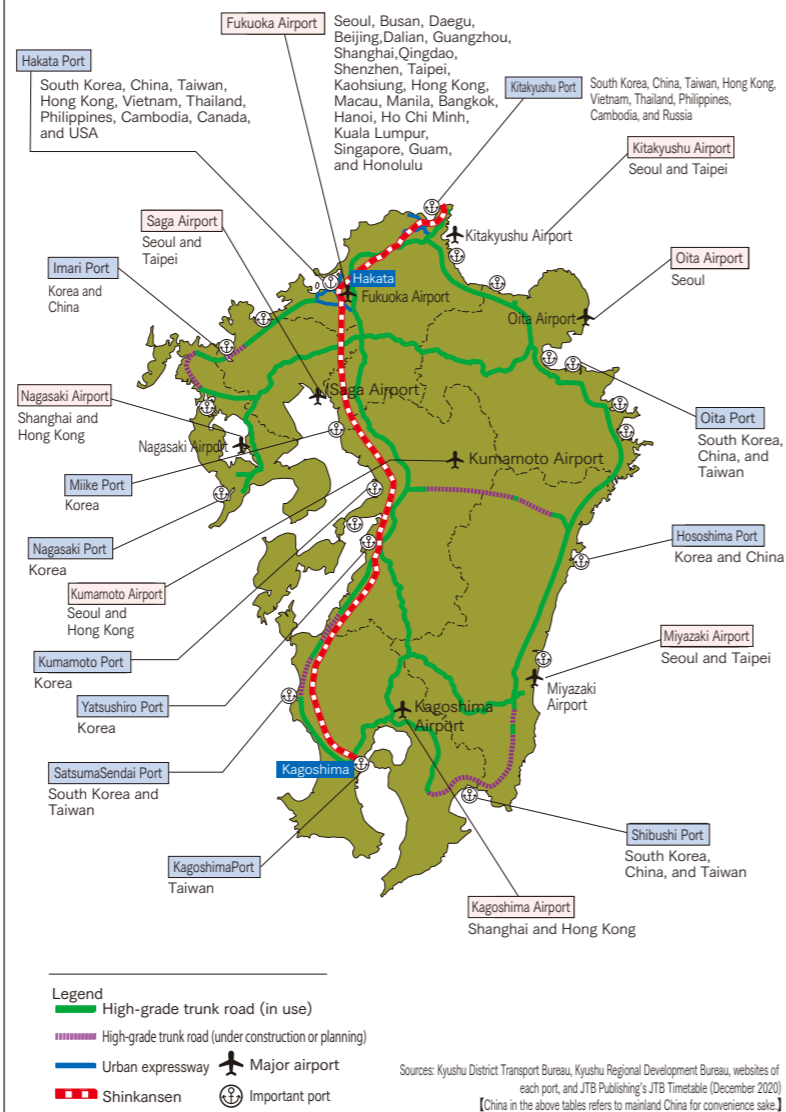

Convenience of Access to Asian Countries

The network to Asia is also substantial. The flight time is more than an hour shorter than that from Tokyo.

	Fukuoka	Tokyo (Narita)
Airport to city center	10 minutes	50 minutes
Busan (Korea)	50 minutes	2 hours 25 minutes
Seoul (Korea)	1 hour 20 minutes	2 hours 35 minutes
Shanghai (China)	1 hour 45 minutes	3 hours 10 minutes
Taipei (Taiwan)	2 hours 30 minutes	3 hours 40 minutes
Hong Kong	4 hours	5 hours 15 minutes
Ho Chi Minh (Vietnam)	5 hours 20 minutes	6 hours
Bangkok (Thailand)	5 hours 45 minutes	6 hours 40 minutes
Singapore	5 hours 50 minutes	7 hours 35 minutes

Kyushu's Economic Scale

Kyushu is about the same in economic scale as Thailand and Austria.

- Kyushu is located in the southwestern part of the Japanese archipelago and consists of seven prefectures: Fukuoka, Saga, Nagasaki, Kumamoto, Oita, Miyazaki, and Kagoshima.
- The population of Kyushu is about 13.01 million, 10.2% of the national population. The area and GDP are about 10% of the whole country, and Kyushu's economic scale is called a "10% economy."
- Kyushu is about the same in GDP as Thailand and Australia.

Fukuoka

1 Healthy gluten-free konjac noodles "Rice Shirataki" made using rice flour

2 Walking rehabilitation support tool "Scalder(Tree)", assisting walking with visual and audio instructions

3 VOC (Volatile Organic Compound) concentrator "SKY-SAVE"

4 Minimal Foundry Service (trial production service from 1 chip by minimal mask-less lithography and outsourced deposition process)

5 Provide and support water treatment system, such as water purification and wastewater treatment

Nagasaki

1 Movable fire-fighting pump "SYSUCUE"

2 Ready-mixed concrete manufacturing plant

3 "Jet Streamer," a jet stream-type flow promotion type water purifier that raises jet flow at the bottom of the water to improve water quality

4 "Rare castella," with a new, creamy texture inside and a firm texture on the outside

5 Module products such as IGBT drivers and custom power supply

Kagoshima

1 Household adhesive bandage (elastic/waterproof type)

2 Product group that utilizes the functional ingredients of shiso, such as rosmarinic acid and o-leonolic acid

3 Easy to prepare, just 3 minutes in the microwave. This gluten-free cake mix uses 100% Kyushu rice flour (plain, cocoa)

4 Globally-rare skin care products with silk as the main ingredient (70% or more)

5 Farm-raised yellowtail with the highest taste, quality, safety and security, through consistent control of the process from production to shipping jointly with fishery cooperatives and fishermen

6 Ultra-high precision press mold (ULTRA - HIGH PRECISION STAMPING DIES)

7 Commercial solar thermal utilization system using vacuum glass tubular solar collector "Fuji Heat P-SOLAR" capable of high temperature collection

8 Honkare-bushi, made from the carefully-selected bonito which is aged over time by craftsmen one by one at Makurazaki, Japan's leading producer of bonito flakes

Oita

1 Agricultural glasshouse with a geo-thermal and state-of-the-art environmental control system introduced

2 Phlegm suction "AMOR SU1" which gently and quietly can perform suction action for phlegm in the trachea continuously for 24 hours

3 High voltage, high heat generation burn-in device that performs the preshipment operation test while switching multiple conditions automatically

4 The forecure® Wash Support is a movable, elevating limb and hair washer that fits users' body easily.

5 Specific reagent "Factor Auto (latexreagent)" product group, which enables rapid examination of various diseases, due to blood coagulation/dissolution abnormality

6 Iichiko SPECIAL, Trophy Winner of the International Wine & Spirit Competition (IWSC)

7 The Cross Pod is a self-supporting cane that can stand with its retractable legs.

Kumamoto

1 HYBRID type air conditioning system "ecowin HYBRID" that combines a radiation type air conditioner and a convection type high-performance air conditioner

2 Floating-ocean type photovoltaic power generation system "Ukishima-system"

Miyazaki

1 A cordless medical hook "koplight" equipped with LED lights to brightly illuminate areas for surgery

2 Five varieties of sweet potatoes, independently branded, in a size that makes them ideal as snacks

3 Diaphragm-type dry vacuum pump which realizes a clean vacuum without using oil or liquid

4 Mask alignment device for automatically transferring and baking high-accurate patterns
