Industrial Strategy for Kyushu-Okinawa Regional Growth—Kyushu-Okinawa Earth Strategy II

The Kyushu-Okinawa Regional Council for Industrial Competitiveness promotes initiatives in four strategic areas that leverage Kyushu and Okinawa's strengths to achieve the sustainable development of Kyushu, a gateway to Asia trying its best to work on solving new issues. The Council developed this strategy in 2014 under a public-private partnership. As of 2021, 21 projects are underway on Stage 2, incorporating new perspectives.

PROFILE OF KYUSHU 2022

Kyushu - Gateway to Asia

Kyushu Economy International

Kyushu Economy International website
<http://www.kyushu-kei.org/>
 Kyushu Economy International (KEI) provides information on Kyushu's business environment and international exchange projects, from time to time.

KEI was established in July 2001 as a unified organization for international economic exchange for Kyushu in cooperation with local public organizations, economic organizations, and private companies in the region. KEI aims to revitalize and autonomously develop Kyushu through industrial exchanges and personnel exchanges between Kyushu and overseas projects. Therefore, KEI publicizes Kyushu's attractive industrial location environment and environmental resources to overseas countries in an integrated manner. At the same time, KEI promotes innovation and a harmonious regional promotion through industrial location and industrial exchange, by attracting domestic and foreign companies.

Organization

Chairman	Chairman, Kyushu Economic Federation
Vice-Chairman	Chairman, Kyushu Federation of Chamber of Commerce and Industry
Members	Each prefecture, each government-designated city, economic organizations, industrial support organizations, financial institutions, and other private companies
Support organizations	Organization for Small & Medium Enterprises and Regional Innovation, Kyushu Branch Each Prefectural Trade Information Center of Japan External Trade Organization (JETRO) Kyushu Center, Japan International Cooperation Agency (JICA Kyushu) and others

Summary of operations

- 1. Planning and proposing internationalization strategies**
KEI considers plans on effective collaborative projects and surveys for the entire Kyushu region and implements them while exchanging opinions and sharing information among KEI members.
- 2. Public relations and information dissemination**
KEI utilizes website and public relations materials related to the Kyushu economy and widely disseminates information both home and abroad on Kyushu's business environment and corporate support projects on overseas expansion.
- 3. Economic exchange**
 - (1) Economic exchange projects with the Asian region (e.g., Yellow Sea region, China, South Korea, and ASEAN)
 - (2) Seminars etc. to provide information on overseas business and economic situations, including the latest overseas local information, market trends, and support system usage.
 - (3) Overseas exhibitions, business meetings with overseas buyers, etc. to support an expansion of sales channels in Asia, Europe, the United States, etc. KEI develops a wide range of overseas expansion support and economic exchange projects, including the above.
- 4. Personnel exchange**
KEI promotes mutual understanding between Kyushu companies and global human resources, such as international students, and the recruitment and retention of international students in Kyushu companies. Accordingly, KEI implements projects, including opportunities for exchange and making contact points.
- 5. Investment promotion**
KEI collects information on the promotion of investment (internal investment) in Kyushu, implements external promotion, and makes efforts to promote investment in various parts of Kyushu.

Fukuoka

1 Healthy gluten-free konjac noodles "Rice Shirataki" made using rice flour

2 VOC (Volatile Organic Compound) concentrator "SKY-SAVE"

3 Minimal Foundry Service (trial production service from 1 chip by minimal mask-less lithography and outsourced deposition process)

4 Walking rehabilitation support tool "Soutenir (Tree)" assisting walking with visual and audio instructions

5 Provide and support water treatment system, such as water purification and wastewater treatment

6 SR5000 High-speed sludge reactor

Oita

1 Agricultural glasshouse with a geo-thermal and state-of-the-art environmental control system introduced

2 Phlegm suction "AMOR SUI", which gently and quietly can perform suction action for phlegm in the trachea continuously for 24 hours

3 High voltage, high heat generation burn-in device that performs the prestimulant operation test while switching multiple conditions automatically

4 The forecast® Wash Support is a movable, elevating limb and hair washer that fits users' body easily.

5 Specific reagent "Factor Auto (late reagent)" product group, which enables rapid examination of various diseases: due to blood coagulation/dissolution abnormality

6 Iichiko SPECIAL, Trophy Winner of the International Wine & Spirit Competition (IWSC)

7 The Cross Pod is a self-supporting cane that can stand with its retractable legs.

Nagasaki

1 Movable fire-fighting pump "SYSUCUE"

2 Ready-mixed concrete manufacturing plant

3 "Jet Streamer," a jet stream-type flow promotion type water purifier that raises jet flow at the bottom of the water to improve water quality

4 "Rare castella," with a new, creamy texture inside and a firm texture on the outside

5 Module products such as IGBT drivers and custom power supply

Kumamoto

1 HYBRID type air-conditioning system "ecowin HYBRID," that combines a radiation type air conditioner and a convection type high-performance air conditioner

2 The rice shochu(distilled spirit) Kawabe won the Platinum Award in the rice shochu category of Kura Master 2021.

3 Household adhesive bandage (elastic/waterproof type)

4 Product group that utilizes the functional ingredients of shiso, such as rosmarinic acid and α-linolenic acid

5 Easy to prepare, just 3 minutes in the microwave. This gluten-free cake mix uses 100% Kyushu rice flour (plain, cocoa)

6 Globally-rare skin care products with silk as the main ingredient (70% or more)

Kagoshima

1 Ultra-high precision press dies/molding dies, motor cores, connectors, and lead frames

2 Globally-rare skin care products with silk as the main ingredient (70% or more)

3 Authentic sweet potato shochu (DAIYAME and Kaiko Iwai no Aka) and authentic barley shochu (Kakushigura)
